

Call for Paper: Digitalized Testing and Assessment

Purpose:

With the growth of e-learning technologies, the digitalized testing and assessment have become an emerging tendency. It can be obviously seemed from the well known Computer-Based Testing such as the TOEFL in English proficiency test, computer certifications, programming certifications, the ARE in architect certification, USMLE in Medical License, etc. Therefore, in order to assess multiple capabilities, the testing and assessment technologies should be improved and enhanced by means of computer's characteristics including the multimedia, high interactivity, and high computational capability. Accordingly, how to apply the new digitalized technologies to improve the novel assessment theories with the high reliability and validity is our concern in this workshop. Hence, anyone of the global Chinese who is interested in this topic is welcome to participate in this workshop for sharing the research results and experiences.

The topics include but are not limited to:

The Development of Systems and Tools on Digitalized Testing and Assessment

The Theories and Frameworks on Novel Digitalized Testing and Assessment

The Instructional Strategies and Applications on Digitalized Testing and Assessment

The Studies of Students' Learning Achievements on Digitalized Testing and Assessment

Important dates:

Please refer to the web site: http://www.gccce2010.org/important_dates.html

Executive Chair: TSENG Shian-shyong, Chiao Tung University, Taiwan

Co-Chair: Gao Ping, Nanyang Technological University, Singapore

Panel Organization Co-Chairs:

SUNG Yao-ting, Taiwan Normal University, Taiwan or

KUO Bor-chen, Taichung University, Taiwan
